Subject: Review of Application to Modify a Recovery Well Permit
74-223306.0001; Multiple recovery wells
Metropolitan Domestic Water Improvement District-SW Diablo Village

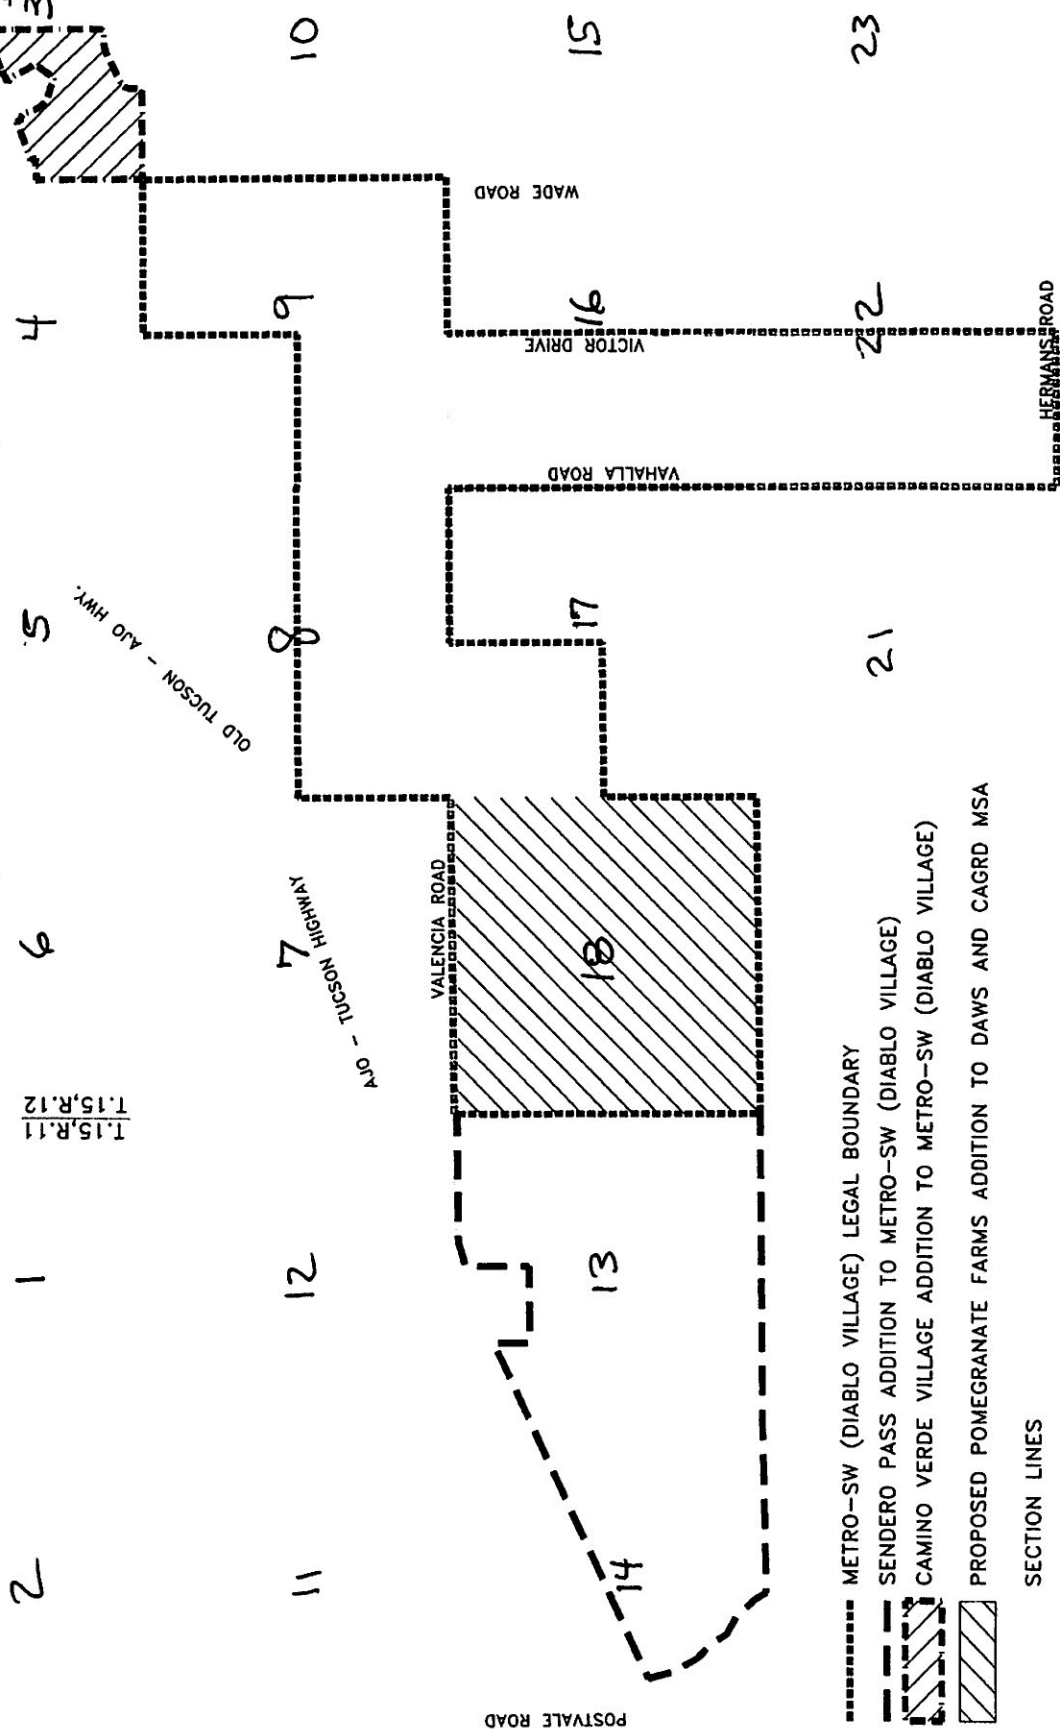

Comments: I have reviewed the above-referenced application to modify a Recovery Well Permit. Metro Water requests to add six wells owned by Tucson Water to its permit. The six wells are recovery wells with permitted volumes and are within the 1-mile safe harbor of the CAVSARP and SAVSARP underground storage facilities.

As permitted service area/recovery wells, no further well impact analyses are required. A demonstration of consistency with the Tucson AMA management plan is also not necessary. As a municipal provider with an assured water supply, Metro Water's recovery is considered to be consistent with the management plan.

Conclusion

I support issuing a recovery well permit for the specified volumes and locations described in the application.

Re: Recovery Well Permit Modification Application for Metro Southwest – Diablo Village Service Area

Dear Mr. Christiana:

Metropolitan Domestic Water Improvement District (Metro Water District) is submitting the enclosed Application for a Recovery Well Permit to the Arizona Department of Water Resources (ADWR). The purpose of this application is to modify Metro Water District's recovery well permit number 74-223306.0000 for our Metro Southwest – Diablo Village Service Area.

Metro Water District has executed a wheeling agreement with the City of Tucson (COT) and would like to add wells owned and operated by the COT to Metro Water District's recovery permit. Metro Water District will have a portion of its Central Arizona Project water allocation delivered to the COT's Central Avra Valley Storage and Recovery Project (CAVSARP) and Southern Avra Valley Storage and Recovery Project (SAVSARP). Metro Water District has submitted applications for water storage permits at CAVSARP and SAVSARP. The purpose of this recovery well permit application is to add the COT's CAVSARP and SAVSARP recovery wells.

It is for this recovery well permit modification that Metro Water District is submitting the attached application form. A check #49058 in the amount of \$1,000.00 to cover the initial application fee is enclosed.

If you have any questions or require additional information, please call Gary Burchard or me at (520) 575-8100.
